

PINECREST

Recommended Improvements

Harvard Road & Orange Place

- Maximize the available length of the eastbound left turn lane.
- Update signal timings and coordination with adjacent traffic signals.

Orange Place & Pinecrest Drive.

- Remove the existing traffic signal control.
- Prohibit all movements from the Pinecrest Drive approach to Orange Place. This will create an intersection that only permits the ingress movement to the site.

Orange Place & South Access Drive

- Install traffic signal control.
- Construct the westbound approach (site approach) with one lane each for the site ingress and egress movements.

Orange Place & North Access Drive

- Install traffic signal control.
- Construct the westbound approach (site approach) with one lane each for the site ingress and egress movements.

Orange Place & Residential Access

- Install stop sign control and the westbound approach (site approach).
- Construct the westbound approach (site approach) with one lane each for the site ingress and egress movements.

Harvard Road & Lander Road

- Install traffic signal control.
